- Thank you very much for purchasing TOSHIBA Air Conditioning Control System.
- Please read this manual carefully beforehand for thorough understanding to use this product correctly and safely.
- Please keep this manual at hand for quick reference.
- Be sure to have the product's warranty.
- Nous vous remercions d'avoir porté votre choix sur un système de contrôle de la climatisation TOSHIBA.
- Commencez par lire attentivement ce manuel pour bien comprendre le système afin de pouvoir l'utiliser correctement et en toute sécurité.
- Conservez ce manuel à portée de main pour pouvoir le consulter rapidement.
- Veillez à disposer de la garantie produit.
- Vielen Dank, dass Sie sich für das TOSHIBA Klima-Steuerungssystem entschieden haben.
- Bitte lesen Sie dieses Handbuch vor dem Betrieb sorgfältig durch, um zu gewährleisten, dass Sie die korrekte Handhabung und die Sicherheitshinweise verstehen.
- Bitte bewahren Sie dieses Handbuch griffbereit auf, damit Sie jederzeit darin nachschlagen können.
- Stellen Sie sicher, dass die Produktgarantie beiliegt.

PRECAUTIONS FOR SAFETY

The following instructions must be observed.

 The product and this manual are provided with important safety notices to ensure safe use and protect the user and other people from hazards and preclude damage to property.
 Be sure that you fully understand the following contents (expressions and graphic symbols) and read this manual carefully. Always observe the precautions.

Expressions

IG Text set off in this manner indicates that failure to adhere to the directions in the warning could result in serious bodily harm (*1) or loss of life if the product is handled improperly.

CAUTION Text set off in this manner indicates that failure to adhere to the directions in the caution could result in serious bodily injury (*2) or damage (*3) to property if the product is handled improperly.

*1: Serious bodily harm indicates loss of eyesight, injury, burns, electric shock, bone fracture, poisoning, and other injuries which leave aftereffect and require hospitalization or long-term treatment as an outpatient.

*2: Bodily injury indicates injury, burne, electric shock, and other injuries which do not require hospitalization or long-term treatment as an outpatient. *3: Damage to property indicates damage extending to buildings, household effects, domestic livestock, and pets.

Graphic symbols

Prohibited

"O" indicates prohibited items. The actual contents of the prohibition are indicated by a picture or text placed inside or next to the graphic symbol.

"• indicates compulsory (mandatory) items.

The actual contents of the obligation are indicated by a picture or text placed inside or next to the graphic symbol.

" \triangle " indicates caution items. The actual contents of the caution are indicated by a picture or text placed inside or next to the graphic symbol.

Ask your dealer or a professional for installation of your system.

Installation requires specialized knowledge. If you install your system yourself, fire, electric shock or injury may be caused.

Power OFF in the event of an alarm (odor, etc.).

Failure to do so may cause fire or electric shock. Ask your dealer for repair.

Do not disassemble, alter, repair or relocate the system alone.

This may cause fire, electric shock or injury. Ask your dealer for repair or relocation.

Before cleaning the unit, be sure to stop operation and turn OFF the power.

Failure to do so may cause electric shock or injury.

Do not touch any button with wet fingers.

This may cause electric shock.

Do not wash the unit.

This may cause electric shock.

Do not put a flower vessel or a container with water on the unit.

Entering of water inside may deteriorate electrical insulation, which may cause electric shock.

MAIN FUNCTIONS

Monitoring and Control of Air Conditioners

• Air-Conditioning Control System monitors and controls all air conditioners collectively.

Air conditioners are categorized by "Block," "Tenant," "Area," and "Unit". Display and setting for each unit are available for blocks of "Whole Building," "Tenant," and "Area". Operation hours of air conditioners are stored in a CompactFlash card.

Energy Monitoring is optionally available by connecting wattmeters.

Furthermore, this system provides interlocking control with a fire alarm and a locking signal, and alarm output through contacts to the external.

Checking and Setting of Operating/Master/Billing Schedules

• The scheduler controls operation of all air conditioners. Up to 20 times of ON/OFF per day can be set, and setting OFF only can prevent air conditioners from going on running unintentionally. Master schedule allows settings of weekly patterns, four special-day patterns, non-operation days, as well as monthly schedule for 12 months. In addition, billing schedule allows calculating operation hours and Energy Monitoring for in and out of working hours respectively.

Alarm List Indication

• Displays current alarms promptly with the [Alarm List] button.

Optional Functions

• Eleven optional functions are available such as displaying alarm history, setting scheduler enable/disable, and display cleaning (disabling touch screen buttons).

Number of Connectable Air Conditioners and Functions

Model	Number of connectable units	Energy Monitoring function	Interlocking with fire alarm/locking signal/external alarm output
BMS-TP5121PWE	512	Provided	Provided
BMS-TP5121ACE	512	Not provided	Provided

BMS-TP0641ACE	64	Not provided	Provided

MAIN SCREENS AND FUNCTIONS

(1) Initial Screen (Function Select Button: MAIN)

Note

Screensaver

The LCD backlight turns off automatically if there is no touch on the screen for about 10 minutes. When you touch the screen while the screensaver is active, touch a corner of the screen because the control buttons on the screen are active all the time.

Before cleaning the display screen, push [Display cleaning] (see page 60). The control buttons become disabled for 30 seconds.

(2) Schedule Screen (Function Select Button: SCHEDULE)

	<u> </u>	<u>, -</u>	

Operating Schedule	Sets and checks a weekly schedule beginning with the date. Scheduler operation is performed according to the operating schedule. A weekly schedule is copied from the master schedule at 0:00 midnight everyday. If the master schedule is updated, the updated content will be reflected in the operating schedule one week later. Therefore, always check the operating schedule.
Master Schedule	Sets and checks the master schedule. The master schedule comprises a weekly pattern, four types of special days, and non- operation days.
Billing Schedule	Sets and checks a billing schedule to charge for out of working hours.
Meter-Reading setting	Sets and checks the automatic meter-reading date and checks the meter-reading data.

1 Push [Set All Units].

All the air conditioners shown in the list are set collectively.

* This is effective even when air conditioners are listed on two or more pages.

In the example of this screen, all the four air conditioners are set.

For how to set air conditioners, see 14 Settings for Air Conditioner Operation.

14 Settings for air conditioner operation

The following describes settings of operation mode, fan speed, set temperature, R/C control, etc. Push [SET] - [Set All Units] to open the screen shown left. (Refer to 9 to 13 for operations to display the setting screen.)

For blank items, the current settings of each air conditioner are continuously valid. When performing total setting for all units, be careful that the displayed settings are valid for all selected air conditioners as control settings.

[Setting]

- (1) Set operation mode, fan speed, set temperature and other items individually.
- (2) Push [OK]. The settings are transmitted and the setting screen closes. If you push [Cancel], the setting screen closes with no settings transmitted.

[Content of Setting Screen]

Setting Air Conditioners (continued)

15 Indicating alarm/filter sign

Select an alarm air conditioner, and ① push [CHECK]. An alarm indication or filter sign appears on the screen.

(The CHECK button is not available when block, tenant or area is selected.)

When an air conditioner with no alarm is selected, no alarm is indicated.

- (2) Push [Confirm] to return to the previous screen.
- (3) When [Reset] is pushed, an alarm clear signal is transmitted to the alarm air conditioner to clear the alarm signal. A confirmation message appears before the alarm clear signal is transmitted.

If both an alarm and filter sign occur simultaneously, alarm indication takes precedence.

16 Checking operating schedule

- Push [SCHEDULE]. The Schedule screen (Fig. 16-1) appears. To close this screen, push [MAIN].
- (2) Push [Operating Schedule]. The Operating Schedule Check screen (Fig. 16-2) appears.

Black line ON to OFF Green line ON only Red line OFF only

- (3) When [ALL UNITS] is pushed, a list of all units is displayed (Fig. 16-3).
- (4) Choose an air conditioner whose schedule you want to check.
- (5) When the list ranges over two or more pages, use the [▲ Previous] and [▼ Next] buttons.
 If you choose no air conditioner, push [Cancel].
- (6) Push [OK] after choosing an air conditioner.
- ⑦ Push [Return to menu] to return to the Schedule screen (Fig. 16-1).

Checking/Setting Operating Schedule (continued)

Fig. 17-1 Operating Schedule Check Screen

Fig. 17-2 Operating Schedule Setting Screen

Fig. 17-3 Operating Schedule Detail Setting Screen

17 Setting/changing/deleting operating schedule

 Push a day of the week button. The Operating Schedule Setting screen (Fig. 17-2) appears.

<Addition>

- Push [Addition]. The Operating Schedule Detail Setting screen (Fig. 17-3) appears.
- ③ Set time for operation ON or OFF with the ▲ and ▼ buttons.
- Push [ON] to run or [OFF] to stop.
 To undo the setting to the previous state, push [Undo].
- (5) Confirm the setting, and then push [OK] on the Detail Setting screen.
 If you do not add the operating schedule, push [Cancel] on the Detail Setting screen.

<Change>

- (6) Push a number (1 to 20) whose operating schedule you want to change. The schedule list ranges on two pages.
- ⑦ Switch the list using the [Previous ▲] and [Next ▼] buttons.

The Detail Setting screen (Fig. 17-3) appears.

- (8) When you change ON or OFF time, use the ▲ and ▼ buttons.
- (9) Push [ON] or [OFF] to change ON/OFF mode. To undo the changed setting to the previous state, push [Undo].
- (1) Confirm the setting, and then push [OK] on the Detail Setting screen.
 If you do not change the operating schedule, push [Cancel] on the Detail Setting screen.

Fig. 17-4 Operating Schedule Detail Setting Screen (Delete Operation)

<Delete>

- Push a number (1 to 20) whose operating schedule you want to change. The schedule list ranges on two pages.
- (2) Switch the list using the [Previous ▲] and [Next ▼] buttons.

The Detail Setting screen (Fig. 17-3) appears.

- (13) Push [Delete].
 - The outline of the [Delete] button is highlighted gray (Fig. 17-4). To undo the deletion to the previous state, push [Undo].
- Push [OK] on the Detail Setting screen to delete the selected operating schedule.
 If you do not delete the operating schedule, push [Cancel] on the Detail Setting screen.
- (5) Confirm the addition, change or deletion setting, and then push [OK].
 If you cancel the addition, change or deletion setting, push [Cancel].

	5 When not chang	

34 Setting monthly pattern

- 1 Push [Monthly pattern].
- ② Display a month whose pattern you want to set using the [▲ Pre] and [▼ Next] buttons.
- ③ Push [Set]. The Monthly Pattern Setting screen (Fig. 34-2) appears.
- (4) Choose a pattern (Special 1 to 4, Non Op. or Weekly).
- (5) When you choose a date button whose pattern you want to set, the selected pattern is set for the day.

A weekly pattern (normal pattern) based on days of the week is applied to the days with no indication (Sp1 to 4, NOP).

 (6) Push [OK] to change the setting, or push [Cancel] when not changing the setting. To re-set the patterns of special days and nonoperation days on the calendar to weekly pattern, push the pattern button [Weekly]. Indications (Sp1 to 4, NOP) disappear and a weekly pattern schedule based on days of the week becomes effective.

35 Copy to other section

(1) Push [Copy to other section]. The screen (Fig. 35-2) appears.

<Copying weekly pattern>

(2) Choose one or more days of the week you want to copy ([Mon] to [Sun]). To choose all days of the week, push [Weekly pattern].

<Copying special-day pattern>

 (3) Choose one or more special days you want to copy ([Special 1] to [Special 4]).
 To choose all special days, push [Special day].

<Copying monthly schedule>

- (4) Choose one or more months you want to copy ([2005 / 1] to [2005 / 12]). To choose all months, push [Monthly pattern]. To cancel the selection, push the selected buttons.
- (5) Push [BLOCK] to copy pattern/schedule to a block. A block list is displayed (Fig. 35-3).
- Push [TENANT] to copy pattern/schedule to a tenant. A tenant list is displayed (Fig. 35-4).
- Push [AREA] to copy pattern/schedule to an area. An area list is displayed (Fig. 35-5).
- Push [UNIT] to copy pattern/schedule to another air conditioner. A unit list is displayed (Fig. 35-6).
- (6) Choose a copy destination from the list.
- ⑦ When the list ranges over two or more pages, use the [▲ Previous] and [▼ Next] buttons.
- Push [OK] to perform the selected copy. If you cancel the selected copy on the screen of Fig. 35-3, 35-4, 35-5, or 35-6, push [Cancel]. The screen of Fig. 35-2 reopens. If you cancel the selected copy on the screen of Fig. 35-2, push [Cancel]. The Billing Schedule Check screen (Fig. 35-1) reopens.

42 Resetting all alarms

This menu is provided to clear all alarm signals by transmitting an alarm clear signal to all air conditioners.

 Push [OPTION]. The Menu screen (Fig. 42-1) appears.
 To return to the Manitoring screen, push [MAIN]

- (2) Push [Reset all alarm]. A confirmation message appears as shown in the Confirmation Message screen (Fig. 42-2).
- ③ Push [Yes] to clear alarm signals.
 Push [No] to return to the Menu screen (Fig. 42-1) without clearing alarm signals.

Fig. 43-1 Menu Screen

Fig. 43-2 Clock/Calendar Setting Screen

43 Synchronizing system clock

This menu is provided to set the built-in clock of the computer.

(1) Push [OPTION]. The Menu screen (Fig. 43-1) appears.

- (2) Push [Clock and calendar setting]. The Clock/ Calendar Setting screen (Fig. 43-2) appears.
- ③ Set year, month, day, and time with the ▲ and ▼ buttons.
- (4) Confirm the setting, and then push [OK]. To cancel the setting, push [Cancel].

Other Settings (continued)

Fig. 44-1 Menu Screen

Fig. 44-2 Operation Mode Select Screen

44 Selecting cooling or heating mode

This menu is provided to limit the operation mode to the cooling (COOL/DRY/FAN) or heating (HEAT/ FAN) mode only. This menu is useful to prohibit cooling or heating for multiple air conditioners.

1 Push [OPTION]. The Menu screen (Fig. 44-1) appears.

To return to the Monitoring screen, push [MAIN].

- (2) Push [Operation mode restriction]. The Operation Mode Select screen (Fig. 44-2) appears.
- ③ Push [COOL,DRY,FAN] to permit the COOL, DRY and FAN only modes. Push [HEAT, FAN] to permit the HEAT and FAN only modes.

When permitting all operation modes, push [All permitted].

(4) Confirm the setting, and then push [OK]. To cancel the setting, push [Cancel].

45 Fire alarm indication

Interlocking with a fire alarm, this system indicates a fire alarm message in the event of fire. In this case, operation of all air conditioners is prohibited automatically.

- 1 Push [Confirm] to return to the previous screen.
- (2) Push [Unlock] to reset the operation prohibition setting.

Fig. 46-1 Menu Screen

Fig. 46-2 Password setting screen

Fig. 46-3 Monitor screen

46 Operation restrictions by password

Used when operating an air conditioner until you enter a password to log in the system or when prohibiting the setting and checking performed using [SCHEDULE] and [OPTION] buttons.

1 Push [OPTION]. The Menu screen (Fig. 46-1) appears.

To return to the Monitoring screen, push [MAIN].

- (2) Push [Password setting]. The Password Setting Screen (Fig. 46-2) appears.
- ③ Enter a password consisting of four-digit numbers using a numeric button. The initialized password is "1048".
- To change a password, click the New Password check box and then enter a new password consisting of four-digit numbers. Click the New Password Again check box and enter the same password again.
- (5) Select the range of the function to be limited during logout operation.
 - Level 1 : Prohibits the setting and checking performed using [SCHEDULE] and [OPTION] buttons. (An air conditioner can be set and operated in this case.)
 - Level 2 : Prohibits the setting and operation of an air conditioner and the setting and checking performed using [SCHEDULE] and [OPTION] buttons.

Cancellation : Limits no function by a password.

- (6) Check the contents of setting and push [OK]. To cancel the setting, push [Cancel].
- Push [Main] to return to the Monitor Screen (Fig. 46-3) and push [Logout]. The operation in the selected range (Level 1 or Level 2) cannot be done in this case. [Logout] is then switched to [Login].

Push [Login]. The Password Input Screen (Fig. 46-4) appears.

The Password Input Screen (Fig. 46-4) appears when operation is not done for five minutes even if you do not push [Logout]. (Automatic logout)

Other Settings (continued)

Fig. 46-4 Password input screen

 Enter a correct password consisting of four-digit numbers to log in the system.
 You can enter no password for 30 minutes when you enter a password incorrectly three times. In this case, you cannot log in the system. (Lock out)

Fig. 47-1 Schedule screen

Fig. 47-2 Meter-Reading setting screen

Fig. 48-1 Schedule screen

47 Change and checking of automatic meter-reading date

- Push [SCHEDULE]. The Schedule Screen (Fig. 47-1) appears. To exit, push [MAIN].
- Push [Meter-Reading setting]. The Meter-Reading Setting Screen (Fig. 47-2) appears.
- ③ Display the month, which you want to change and check, using [▲ Pre] and [▼ Next] buttons. The set automatic meter-reading date is displayed with "★".
- To delete the set meter-reading date, push the [Date] button of the corresponding date.
 Select the [Date] button of the date which you want to set in an automatic meter-reading date.
 A meter-reading date is set to the corresponding date.

A maximum of two days can be set for a meterreading date within the month.

- (5) To return the set or deleted meter-reading date to the former date, push [Undo].
- (6) Push [Return to menu] to return to the Schedule Screen (Fig. 47-1).

48 Manual Meter-Reading

Used when you want to totalize data or temporarily totalize it before an automatic meter-reading date.

- Push [SCHEDULE]. The Schedule Screen (Fig. 48-1) appears. To exit, push [MAIN].
- Push [Meter-Reading setting]. The Manual Meter-Reading Screen (Fig. 48-2) appears.

Other Settings (continued)

(3) Push [Return to menu] to return to the Menu Screen (Fig. 51-1).

52 Backup of setting information

Used when creating the backup data for the air conditioner setting information (an address and schedule) stored in CF (Compact Flash) card.

(1) Push [OPTION]. The Menu Screen (Fig. 52-1) appears.

To return to the Monitoring Screen, push [MAIN].

(2) Push [Setting backup] to display the Confirmation Message screen (Fig. 52-2).
Fig. 52-2 Confirmation Message Screen

 ③ Push [Yes] to start backup operation.
 Push [No] to return to the Menu Screen (Fig. 52-1) without performing backup operation.

NECESSARY INFORMATION

Reading Monthly Report Data and Energy Monitoring Data

Monthly report data and Energy Monitoring data are stored in a CompactFlash (CF) card. To output Energy Monitoring result, it is necessary to connect a computer using a LAN. Please contact your dealer in that case.

You can remove a CF card when reading data directly or copying data for backup. Power off the Touch Screen Controller before removing the CF card.

After data read or data copy ends, reinstall the CF card and then turn on the power to restart the system.

<Removing CF Card>

(1) Turn off the power of the Touch Screen Controller, and unplug the power cord.

(2) Remove the CF card from the Controller.

<Reinstalling CF Card>

Insert the CF card into the slot of the Controller, and then power on the Controller.

Insert the CF card with its label side facing the rear side of the Controller.

It can be inserted into either of the slots.

The eject lever is locked down when the CF card is inserted.

The screen display returns to the previous state in a few minutes.

If not, the CF card is not installed properly. Check installation of the CF card. Finish handling the CF card as quickly as possible because the operation time of air conditioners is not counted while the power is off.

Note

A CF stores data of recent three months. The data of three month ago is deleted every day at the end of the day.

Help Information

Nothing is displayed.	Is the backlight off?
Scheduler does not work after operation schedule is set.	Is the scheduler operation enabled on the Menu screen? \rightarrow Refer to 39 "Setting scheduler operation". Is only the master schedule set? \rightarrow Also set the operating schedule.
A communication error occurs.	Is the Intelligent Server powered on? Are air conditioners powered on?
Remote control does not work.	 Is remote control operation prohibited? → Refer to 14 "Settings for air conditioner operation (R/C Ctrl.)". Is air conditioner operation prohibited forcibly? → Refer to 14 "Settings for air conditioner operation (ON/ OFF)". (Option) Fire alarm interlocking control setting: Is this function set enabled? Cancel this function after the fire alarm is activated. → Push [CHECK] and check 15 "Indicating alarm/filter sign" and 45 "Fire alarm indication".
Screen display is abnormal.	 Is the CF card installed properly? → If the Touch Screen Controller is powered on with the CF card installed improperly, the Controller runs using dummy data.
Cooling (or heating) operation is not available.	 Is heating (or cooling) operation going within the same refrigerant system? → Usually heating operation is set on a priority basis. Is operation mode change by the remote control prohibited? → Refer to 14 "Settings for air conditioner operation (R/C Ctrl.)". Is heating (or cooling) operation selected with the mode selection menu on the Menu screen? → Refer to 44 "Selecting cooling or heating mode".

Consult Your Dealer When:

Contact your dealer when

- · You want to change tenant name.
- $\cdot\,$ You want to install more air conditioners.
- · You want to output Energy Monitoring result.
- · You want to change the deadline of Energy Monitoring tally.
